Infinite Ammunition (Quasi-Realistic) Usernotes: You might carry spare ammo and reload during lulls in the shooting, but you never have to pause to reload in a gunfight. The GM may require you to pay for ammo and magazines and perhaps limit you to that many shots total but you	[1]
can still ignore their encumbrance. Stone-Cold Killer {p. GF19} Usernotes: Every shot you fire is an instrument of intimidation! You don't just shoot enemies, you blast them through windows, blow off their limbs, and produce fountains of gore. On any turn during which you shoot someone and inflict a wounding effect beyond mere injury crippling, knockdown, death, etc. make an immediate shooting skill roll. Success lets you try Intimidation against any witnesses as a free action.	[1]

ATTACKS TABLES COLUMN NOTES

Reach "*": The weapon is awkward and requires a Ready maneuver to change reach; e.g. between 1 and 2. Parry "U": The weapon is *unbalanced*. You cannot use it to parry if you have already used it to attack this turn (or vice versa). ST "f": The weapon requires two hands. If you have at least 1.5 times the listed ST (round *up*), you can use a weapon like this in one hand, but it becomes *unready* after you attack with it. If you have at least *twice* the listed ST, you can wield it one-handed with no readiness penalty. But if it requires one hand to hold it and another to operate a moving part, like a bow or a pump shotgun, it *always* requires two hands, regardless of ST. ST "f": The weapon requires two hands *and* becomes unready after you attack with it, unless you have at least 1.5 times the listed ST (round *up*). To use it in one hand without it becoming unready. you pend at least *threa* the listed ST.

unready, you need at least three times the listed ST.
