PK Shield {p. PP56} Usernotes: You can psychokinetically resist or deflect incoming physical attacks. This affects weapons, punches, and objects (including those held by TK Grab or thrown by TK Bullet), but it has no effect on energy (e.g., fire, electricity) or purely mental attacks. Every time you are hit by a physical attack, roll against your skill. Success provides DR equal to your PK Shield level. In a situation where you're under constant "attack" (i.e., caught in a vicious hailstorm), roll once per minute. This is a passive ability.	14	IQ-2	[1]

Telekinetic Control {p. You can Fly TK Control Level-5. You can do nothing but fly, because you must concentrate all the Time. NO ACTIVE DEFENSE! You can use your TK to either grab things (as TK Grab), crush organs (as TK Crush), or throw small objects (as TK Bullet), but only for one use at a time. Use your Telekinetic Control level as your TK Grab level, and one-third your Telekinetic Control level (round down) as your TK Bullet and TK Crush level. At level 6 and above, you can also pick yourself up and fly, as for Levitation. This takes two seconds of concentration and a skill roll. Your air Move is equal to (your Telekinetic Control level-5). Focusing all of your TK energy into flight is tricky; while levitating, you can do nothing except fly (e.g., you cannot Move and Attack) and have NO ACTIVE DEFENSES if attacked. Psi techniques are as for the separate abilities, except that Rapid Launch (Levitation) defaults to skill-6. (This is due to the additional second of delay built into alternative abilities that aren't attacks.)	15	IQ-1	[4]

ST "†": The weapon requires two hands. If you have at least 1.5 times the listed ST (round up), you can use a weapon like this in one hand, but it becomes *unready* after you attack with it. If you have at least *twice* the listed ST, you can wield it one-handed with no readiness penalty. But if it requires one hand to hold it and another to operate a moving part, like a bow or a pump shotgun, it *always* requires two hands, regardless of ST.
Shots "T": The weapon is a *thrown weapon*.
Shots "I": Shots must be loaded individually. The reload time listed is *per shot* rather than for all shots.

less than 1/3 FP: Dodge/2, Move/2, and ST/2 (round up); ST loss does not effect ST-based quantities, such as HP and damage.
0 FP or less: Make a Will roll vs. incapacitation before any maneuver other than Do Nothing, on a critical failure make an immediate HT roll vs. heart attack; every point of FP loss causes an equal loss of HP.
-1xFP or less: Immediate unconsciousness; you can no longer lose FP, further FP costs are lost from your HP instead.
